To Whom it May Concern:

I was introduced to Tim through DataBank's acquisition of Arsalon Technologies and have since had the pleasure of working with the SiTESPAN team. I would like to offer my sincerest recommendation based on my experiences over the last 3 years.

As Owner's Representative, SiTESPAN has been an integral part in the development of our MSP2 Data Center in Egan, Minnesota. They have consulted and managed the process from contract negotiation through project close-out and all phases in between. SiTESPAN assisted the design team through the duration of construction administration and has excelled at resolving technical design and construction conflicts.

Through the course of our relationship Tim and SiTESPAN have earned our trust through their honest execution of business, design, and construction. SiTESPAN executed their responsibilities by focusing the delivery of their service intently on our needs.

We will continue to use Tim and his team at SiTESPAN for our future expansion projects.

Very truly yours,

DATABANK HOLDINGS, LTD.
